ADVERTISEMENT.

THE Proprietors of the present Work think it necessary to state wherein they have endeavoured to excel their Competitors; that, from an impartial View of this, with other Dictionaries, it may derive that Portion of critical Approbation and public Patronage, which its comparative Superiority may fairly claim.

Small as it appears in Compass, this little Dictionary contains in Substance the quintessence of Lexicography; it is, in fact, JOHNSON'S DICTIONARY in MINIATURE, adapted for every Purpose as a Book of Reference. It is copious in Contents though small in Volume. Its component Materials are judiciously selected, and accurately arranged; with this superior Advantage—that the more obsolete Excrescences of JOHNSON, and other eminent Lexicographers, are here exchanged for many additional scientific and literary Terms not current in their Time.

The Size of this Dictionary renders it peculiarly adapted for the Pocket; and as every Word that might give Offence to Delicacy has been omitted, it will be found particularly acceptable to Female Readers.

An Epitome of the HEATHEN MYTHOLOGY has been annexed, more copious and correct than has hitherto appeared in any similar Production; together with an accurate LIST of all the CITIES, BOROUGHS, and MARKET TOWNS, in ENGLAND and WALES, with their respective Distances from the METROPOLIS.

The Type is of unequalled Symmetry and Beauty; the Paper of the finest Quality and Texture; and the typographical Execution unrivalled.

With these Advantages and Embellishments, the Proprietors submit it to public Approbation, solicitous of Patronage only proportioned to its Merits.
